Background (continued)

The income disregard for couples in the A&D FPL Program is the difference between the SSI/SSP couple payment and 100% of FPL.

APPR Level

The APPR is used to calculate a potential period of ineligibility whenever a transfer of resources has been made for less than fair market value by an applicant/beneficiary who is in Long-Term Care (LTC).

Changes

The APPR increased to \$5,031 for 2006.

The following changes/adjustments are effective April 1, 2006:

- FPLs increased,
 - Sneede v. Kizer prorated FPLs increased, and
 - The A&D couples' disregard effective April 1, 2006 through December 31, 2006 has been changed to \$372.

Workers must use this figure whenever the date of application for Medi-Cal or the date of institutionalization (the more recent of the two) occurs on or after January 1, 2006 and a disqualifying transfer has occurred.
